

Give Us Access to Your Google Business Profile

One quick step, about 2 minutes, from your computer or phone

We manage your Google Business Profile as a **Manager** — this lets us post updates, respond to reviews, and keep your listing accurate on your behalf. It does **not** give us ownership of your listing, and you can remove this access at any time from the same screen you'll use below.

1 Go to your Business Profile

Visit the link below and sign in with the Google account that manages your listing.

GO TO
business.google.com

2 Open your business profile settings

Search for your business name if it doesn't come up automatically. Click the **three-dot menu (⋮)** near the top of your profile panel, then select "**Business Profile settings.**"

3 Click "People and access"

This shows everyone who currently has access to your listing.

4 Click "Add," then enter this email

Use the email below exactly as shown.

ADD THIS EMAIL
cewilbur@gmail.com

5 Set the role to "Manager," then click "Invite"

Not "Owner" — **Manager** is the correct role. That's it — you'll get a confirmation, and we'll receive an invite to accept on our end.

Trouble finding these menus? Google occasionally shifts its layout. If anything looks different than described above, just reply to your onboarding email or give us a call — we're happy to walk through it together on a quick screen-share.
